

I'm not robot!

Reduce each fraction to simplest form:

$$4\frac{10}{15} = 4\frac{10}{15} \xrightarrow{\text{Reduce By 5 to Simplest Form}} 4\frac{2}{3}$$

$$3\frac{4}{8} = 3\frac{4}{8} \xrightarrow{\text{Reduce By 4 to Simplest Form}} 3\frac{1}{2}$$

$$3\frac{4}{6} = 3\frac{4}{6} \xrightarrow{\text{Reduce By 2 to Simplest Form}} 3\frac{2}{3}$$

$$3\frac{6}{8} = 3\frac{6}{8} \xrightarrow{\text{Reduce By 2 to Simplest Form}} 3\frac{3}{4}$$

$$3\frac{4}{12} = 3\frac{4}{12} \xrightarrow{\text{Reduce By 4 to Simplest Form}} 3\frac{1}{3}$$

$$3\frac{5}{10} = 3\frac{5}{10} \xrightarrow{\text{Reduce By 5 to Simplest Form}} 3\frac{1}{2}$$

$$3\frac{3}{12} = 3\frac{3}{12} \xrightarrow{\text{Reduce By 3 to Simplest Form}} 3\frac{1}{4}$$

$$1\frac{9}{12} = 1\frac{9}{12} \xrightarrow{\text{Reduce By 3 to Simplest Form}} 1\frac{3}{4}$$

$$1\frac{15}{20} = 1\frac{15}{20} \xrightarrow{\text{Reduce By 5 to Simplest Form}} 1\frac{3}{4}$$

$$3\frac{3}{6} = 3\frac{3}{6} \xrightarrow{\text{Reduce By 3 to Simplest Form}} 3\frac{1}{2}$$

Worksheet 1

WORKSHEET # 7

Solve the following fraction word problems.

1) A pizza was divided in 8 equal slices. Sally was feeling hungry so she ate 4 slices of it. What is the fraction of the slices sally ate?

2) A pizza was cut in 12 equal slices. Tina and Mina ate 7 slices of the pizza. What fraction of the pizza is left?

3) There are 25 students in a class. 14 of them are girls and rest are boys. What is the fraction of girls in the class?

4) There were 18 books lying on the table. Jim picks up 12 books and Tim picks up 6 books. What fraction of books Tim lifted?

5) Sally has 10 dresses. 4 dresses are red and 6 dresses are blue. What is the fraction of red dresses she has?

### Adding Fractions Word Problems

- Year 5 recycled  $2\frac{3}{4}$  boxes of paper in a week and Year 6 recycled  $3\frac{7}{12}$  boxes of paper in a week. What is the total amount they recycled?
- On Monday, John spent  $1\frac{3}{4}$  hours studying and on Tuesday he spent another  $1\frac{3}{5}$  hours studying. What fraction did he spend studying on Monday and Tuesday?
- Emily walked  $2\frac{2}{3}$  of a kilometre in the morning and  $1\frac{3}{4}$  of a kilometre in the afternoon. What was the total distance she walked that day?
- George bought  $3\frac{2}{5}$  boxes of strawberries and  $2\frac{1}{2}$  boxes of raspberries. How many boxes of fruit in total did he buy?
- On Monday, Toby ran  $4\frac{5}{6}$  laps of a running track and on Tuesday he ran  $5\frac{3}{4}$  laps of a running track. What was the total distance he ran over the two days?
- A school consumed  $5\frac{3}{4}$  loaves of bread in one week and  $5\frac{6}{8}$  loaves of bread during week two. What was the total amount of bread they ate?
- In one year, Year 5 used  $8\frac{2}{5}$  boxes of pencils and Year 6 used  $10\frac{3}{5}$  boxes of pencils. How many boxes did the classes use in total?
- In one week a Nursery drank  $4\frac{2}{3}$  bottles of milk. In another week they drank  $5\frac{2}{6}$  bottles of milk. How much milk did they consume in the two weeks?
- Harry walked  $2\frac{2}{5}$  kilometres. He then stopped to rest then walked  $2\frac{5}{6}$  kilometres. What was the total distance he walked?
- Ruth watches a film in the morning that lasts  $1\frac{2}{6}$  hours. In the evening she watches a film that lasts  $1\frac{2}{5}$  hours. How much time has Ruth spent watching films?

Year 2 fraction activities. Finding fractions of amounts year 2 worksheets.

Hello Year 2, I hope you are all staying safe at home! These are just a few ideas of work to help keep you busy while you are at home. I have accessed active learn primary to see who has been reading at home. Thank you to those of you that have been interacting online and reading books. I have updated book bands for those children who had read and completed most allocated books. Miss Gaymer Writing tasks Pobble 365 is a great website that has an image for each day of the year. The images can be used to support story planning, story writing, setting descriptions and reading inferences. Check out the website listed below. Other writing tasks you can do: -Help to bake a cake and write a set of instructions to match -Think of your favourite (or a new) book character and think of adjectives to describe them. Think about different adjectives for appearance and personality -Write a character description about a book character using your adjectives -Write a letter to a friend, neighbour or family member -Have a go at writing a poem (not all poems have to rhyme) -Have a go at making a comic strip for your favourite superhero character -Write a new story (with illustrations) -Write some short chapters for a new story (with illustrations) -Have a go at some research and write some notes (could be animals, countries, famous people) -Create an information text using your notes

Home learning March 2020 Welcome to our Math Fractions Worksheets hub page. Here you will find links to our wide range of free Fraction Worksheets and resources which will help your child with their Fraction learning. Why not check out our fraction riddles worksheets, or look at some of our many fraction resources. You could also try out our fraction games or fraction practice zone for some online practice. This page contains links to other Math webpages where you will find a range of activities and resources. If you can't find what you are looking for, try searching the site using the Google search box at the top of each page. Fractions is an area that a lot of kids find hard to understand. One of the problems with fractions is that they have different meanings depending on the context. For example, you can eat half an apple or cut an orange into fourths. But you can also put the number one-half on a number line, measure a line  $3\frac{1}{2}$  cm long, or find a fourth of 24. Once the concept of fractions as numbers and fractions as parts of a whole has been understood, your child will be well on their way to developing a sound understanding of fractions. Here you will find links to our free fraction pages. On this page you will find links to a wide selection of fraction worksheets, fraction resources and fraction support pages (including videos) to help your child get to grips with fractions! Here you will find the Math Salamanders free online Math help pages about Fractions. There is a wide range of help pages including help with: fraction definitions; equivalent fractions; converting improper fractions; how to add and subtract fractions; how to convert fractions to decimals and percentages; how to simplify fractions. Take a look at our Online Fraction Practice Zone for finding and simplifying fractions. You can choose from a range of levels of difficulty from unit fractions with smaller numbers to mixed fractions with larger numbers. Great for using with a group of children as well as individually. We have a selection of different fraction calculators which will help you to add, subtract, multiply and divide fractions. Our fraction calculators will also: convert fractions to simplest form; convert improper fractions to mixed fractions, and mixed fractions to improper fractions; convert fractions to decimals and percentages; convert decimals and percentages to fractions. Here you will find the Math Salamanders free fraction resources to help your child understand fractions. Resources include Fraction strips and Fraction Flashcards. Back to Top Here you will find a selection of math fractions worksheets sorted by grade order designed to help your child understand Fractions. Using these math fractions worksheets will help your child to: understand what a half is; shade in half of a shape; find different numbers involving 'halves' on a number line; find half of different numbers up to 20. Using these math fractions worksheets will help your child to: understand what fractions are; relate fractions to everyday objects and quantities; place different fractions on a number line; shade in different fractions of a shape; work out unit fractions. Using these 4th grade math fractions worksheets will help your child to: position different fractions on a number line; understand equivalent fractions; understand what a mixed number is; compare two or more fractions; begin to convert fractions to decimals and decimals to fractions. Using these 5th grade math fractions worksheets will help your child to: compare and order fractions; add and subtract fractions and mixed numbers; understand how to multiply fractions by a whole number; understand how to multiply two fractions together, including mixed fractions; understand the relationship between fractions and division; know how to divide fractions and mixed fractions; convert decimals to fractions. At 6th Grade level, children are introduced to adding and subtracting fractions with different denominators. They know and can use equivalent fractions, and can multiply and divide fractions by whole numbers, as well as mixed numbers. Using these math fractions worksheets will help your child to: add and subtract fractions and mixed numbers; understand how to multiply fractions by a whole number; understand how to multiply two fractions together, including mixed fractions; understand the relationship between fractions and division; know how to divide fractions and mixed fractions; convert decimals to fractions. Here you will find a selection of math fractions worksheets sorted by topic. The sheets have been separated into Fractions as numbers, Fractions of Quantities and Converting Fractions. Worksheets in this section cover adding, subtracting, multiplying and dividing fractions. This section also covers positioning fractions on a number line, equivalent fractions and comparing fractions. Here you will find a selection of number line Fraction Worksheets. Using these sheets will help your child to: understand a half as a number. All the free math sheets in this section support the Elementary Math benchmarks for 2nd Grade. Fraction Math Worksheets - understanding a half Using these sheets will help your child to: position fractions on a number line; understand the value of fractions and mixed numbers. All the printable fraction worksheets in this section support the Elementary Math benchmarks for 3rd Grade. Fraction Number Line Worksheets Back Here you will find a selection of Fraction Worksheets based on equivalent fractions. Using these sheets will help your child to: understand and use equivalent fractions; compare different fractions. We have a support page to help students understand how what improper fractions are and how to convert them. We also have a wide range of Improper Fraction Worksheets, some of which use visual fractions to aid understanding and some sheets which are more abstract. How to Convert Improper Fractions Improper Fraction Worksheets Back We have some carefully graded worksheets on comparing and ordering fractions. You can choose from supported sheets with diagrams for students who need extra help to harder worksheets for those more confident. Comparing Fractions Worksheet page Back Here you will find a selection of Fraction Worksheets based on adding and subtracting fractions. The sheets start with adding and subtracting fractions with the same denominator, then progress on to fractions with different denominators. In order to progress on to adding and subtracting fractions with different denominators, your child should be confident with equivalent fractions. Using these sheets will help your child to: add and subtract fractions with the same denominator; add and subtract fractions with different denominators; apply your equivalent fractions knowledge. Here you will find a selection of Fraction Worksheets based on multiplying and dividing fractions. Using these sheets will help your child to: multiply and divide fractions by whole numbers and other fractions; multiply and divide mixed fractions. All the printable fraction worksheets in this section support the Elementary Math benchmarks for 5th and 6th Grade. Here you will find a selection of math fractions worksheets designed to help you understand fractions as parts of a whole. Using these sheets will help your child to: understand how to find different fractions of shapes and quantities; understand how to find different fractions of numbers; understand the link between fractions and division. All the printable fraction worksheets in this section support the Elementary Math benchmarks for 3rd and 4th Grade. Riddles are a great way to get children to apply their knowledge of fractions. These riddles are a good way to start off a maths lesson, or also to use as a way of checking your child's understanding about fractions. All the fraction riddles consist of 3 or 4 clues and a selection of 6 or 8 possible answers. Children have to read the clues and work out which is the correct answer. The riddles can also be used as a template for the children to write their own clues for a partner to guess. Here you will find support pages on how to convert fractions to other number forms such as decimals or percentages. There are some example exercises to try, complete with answers, as well as printable math support pages. Using these sheets will help your child to: convert a fraction to a decimal; convert a fraction to a percentage; convert a fraction to simplest form; convert a fraction to a mixed number; All the free printable shape sheets in this section are informed by Elementary Math benchmarks. Here is our collection of Math games involving fractions. These games are suitable for kids aged from 3rd grade and upwards. Playing games is a great way to learn fraction skills in a fun way. Fraction equivalence, fraction to decimal conversion and properties of fractions are all explored in our fun games to play. Back How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. More Double Digit Multiplication Worksheets (harder) Take a look at some of our worksheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily? Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills. Multiplication Math Games How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources.
